
[WRM web site: ideas and input needed](#)

We are in the stage of trying to implement a WRM web site, and we would welcome your ideas and input for it. The process will begin by posting a description of WRM and the Penang Declaration, the WRM External Bulletin and establishing links with other relevant web sites. We would also like to include all WRM statements and publications (containing at least a listing and summaries of all our books) and to have a section for each of our affiliates, including description, publications, web sites, etc. Please let us know if you have material in electronic format which you would like us to include in the site or web sites you think we should link to and any suggestions you wish to put forward. We will let you know the site's address as soon as its ready.
