
[Short video on the impacts of excessive paper consumption](#)

We have produced a 10 minute video (in English) on the impacts of the paper industry. We hope that the video will be a useful tool for campaigning against excessive paper consumption and for linking those campaigns with the struggles of local communities confronting the expansion of pulpwood plantations and pulp mills in the South.

The video can be accessed at: http://www.wrm.org.uy/Videos/Paper_Consumption.html
