

ANEXO

Projetos de florestamento e reflorestamento para compensação de carbono listados por país

- A tabela abaixo resume as informações obtidas das seguintes entidades privadas de certificação de carbono:
 - ACR (Registro Americano de Carbono)
 - BioCarbon
 - CAR (Reserva de Ação Climática)
 - Cercarbono (Ecorregistro Cercarbono)
 - GOLD (Padrão Ouro)
 - Plan Vivo
 - Social Carbon
 - VCS (Padrão Verificado de Carbono – Verra)
- As informações foram obtidas do [Banco de Dados de Compensações de Registros Voluntários](#) (VCS, GOLD, CAR, ACR) e dos bancos de dados on-line da BioCarbon, Cercarbono Ecoregistry, Social Carbon e Plan Vivo em 6 de fevereiro de 2024.
- As informações apresentadas pelas diferentes entidades certificadoras de carbono em seus registros não têm um padrão uniforme, principalmente em relação à terminologia utilizada para designar as entidades envolvidas em um determinado projeto. A maioria dos conjuntos de dados consultados informa o “desenvolvedor” dos projetos, mas alguns apresentam, em vez disso, ou além disso, o “detentor”, “proponente”, “proprietário” ou “operador” do projeto. Além disso, em vários casos, as informações sobre as empresas ou entidades envolvidas no projeto são exibidas como “Múltiplos proponentes”. De qualquer modo, ao consultar as páginas e os documentos de cada projeto individualmente, as funções de cada entidade em um determinado projeto ficam mais claras.
